11 a.m. Champion Sunday school.
7:30 p.m., Evening Worship at
Champion.—Subject, The Order of
the Royal Purple will worship with us.

Rev. Peter Dawson Minister

Large Crowd At Minstrel Show

All we smart ones got to the Community Hall in good time, in order to get the best seats and see the real struggle for them. At almost the exact minute the curtain rolled up and revealed the stage set for "Wanted a Singer," with the leading men right there. I felt just a faint twinge of the well known depression when I saw his right eye-brow painted so far down on his temple, it made me think of the old bank account overdrawn you know. However that feeling immediately disappeared and never came back.

George Washington, a clever colored servant was to admit the applicants and sing if necessary. A father and son from the farm then arrived and demonstrated fully that they were qualified for the jobs they were applying for. The father had such nice long white whiskers and sang "Gull Line" so touchingly that when he came to "I want to kiss you Caroline" all the Carolines there started for the stage. A tough guy muscled in and just took the job for himself and ousted the light of the Titan blond at the piano. Some amazingly clever sales talk from a persistent salesman wanting help for his little girl who couldn't walk netted him \$200. He made his get-away pretty fast with the money for his little girl who couldn't walk, when he had to admit she was only three months old.

The Hill Miners then regaled us with some stinging music, at the same time gave some good tips on how to flirt and the eyes they made! They can play "Golden Slippers" better than anyone else in North America.

A burlesque on "The Mikado" came next—all colored persons and all the parts taken by men. After an opening chorus by eight singers, in the most elegant kimono, the Lord High Executioner came in looking as deliciously ferocious that one really hoped he would get plenty of jobs. He read a list of those he had in mind for execution, because "they never would be missed" and made us all look and feel a little uneasy as some of his remarks might have been meant for us. However we escaped as he had some involved love affairs to distract him. The phlegmating Nanky Doo after giving Katisha a fifty cent engagement ring, fell in love with the lascivious Yum Yum who was affianced to the Lord High Executioner—love, jealousy and vengeance made us shiver especially when the fitted Katisha came in and closed up on them all. The poor executioner was the only one to meet a violent end, and it was not so bad because the cannon into which he was stuffed, did not go off.

The last part of this jolly program was a Minstrel Show with a large number of young colored folks forming a chorus. The interludes and four outmen, I am told that they were Messrs. Henderson, Campbell, Cool and McIntyre, though I would never have recognized any of them. This an enable gave us some beautifully rendered negro songs, a solo, a quartette and some amusing nonsense, giving a good closing act to a fine evening of entertainment.

One pianist was Mrs. Caldwell who attended all the practices of the piano, doing her part most efficiently towards making that part of the programme the melodious, finished performance that it was and was winning sympathy and forever the hearts of all the young folks for whom she worked so hard. Mrs. Bain played the difficult music for "The Mikado." She too deserves the thanks of the audience for her beautifully rendered accompaniments. Her music made golden rend on which the people of song from the rosy lips of Yum Yum, KoKo and Poo Bah and Micky Doo were threaded.

Pick out your Xmas gifts now. We will keep them till Xmas for you—at the Drug Store.

Len Davis to Broadcast Music For Dance

Watch for announcement of the big dance at the Community Hall Champion Friday Dec. 18. This dance will be broadcasted over Lethbridge C.J.O.C. radio broadcasting station. First time any dance has been broadcasted in a country town hall. Len Davis orchestra.

Attempted Robbery Made On E. J. Clapp's Store

Frank Clapp's store was the scene of an attempted robbery on Monday night. This is the fifth attempt. Thugs have made on the store. An expansion bit was used and part of the panel removed from the front door in an attempt to unlock it. However due to the door being double locked they were unable to gain admittance. They tried the back door but failed to make connection.

Royal Purple Memorial Day

Will be commemorated in Champion United church on Sunday evening, Dec. 6th. Special music, Rev. P. Dawson will preach the service.

Badminton

The second tournament held by the local Badminton club was staged on Monday night when the Nobleford club furnished worthy opposition. Every game was closely contested with the exception of one game played by Geo. Campbell and his partner Earl Ditto Geo. due to a severe Charlie horse in the right arm, resorted to trickery and once he had his opponents tricked proceeded to keep them that way. The final result was Nobleford 115, Champion 102. The local club hopes to return the visit to Nobleford next Tuesday.

Champion High School Has Great Hockey Team

The boys of the High School hockey team sojourned to Vulcan last Saturday and played a game with the Vulcan high school team. The local boys had their skates on them for the first time this year so were not disgraced when they lost by a narrow margin of 3-2. The boys are anxiously waiting for ice in order to get in trim for the season's best pastime.

On Tuesday evening December 8th, the annual meeting and election of officers of the Champion Women's Institute will take place at the home of Mrs. P. O. Sammons. All members are urged to make a special effort to be present promptly at 2:30. The yearly reports will be read and there will be an exchange of Christmas gift certificates—Christmas in Other Lands. Refreshment conveyed Mrs. R. L. Baker.

All ladies of the Royal Purple to meet at Mrs. F. Clever's home to attend in body the Memorial Service of the Royal Purple, which will be held in the United church, Sunday Dec. 6.

THURSDAY, Dec. 3, 1931

NOTES AND COMMENT

A rosy picture for Canadian wheat exporter, with Canada and the United States predicted to enjoy increased sale of their grain, is shown in the monthly review issued by the Dominion Bureau of Statistics. The early movement of Russian wheat in volume, while disquieting at the time, turned out to be a buoyant factor, and the supplies of Canada, United States, Argentina and Australia will be heavily drawn upon the balance of 1931-32 cereal year. Canada is in a particularly favorable position, holding, as she does, only moderate supplies of relatively high grade wheat, and the immediate future is bright. World import requirements for the present cereal years will amount to at least \$25,000,000 bushels, compared to actual shipments of 785,000,000 bushels during 1930-31. The bureau review says:

To fulfill import requirements on this basis, it is apparent from preliminary production estimates in exporting countries that the entire surplus from the 1931 wheat crop in exporting countries will be sufficient to meet import requirements, and that before July 31, 1932, accumulated stock will have to be drawn upon."

Confirmation of the fact that Russian wheat supplies are sharply declining was received in figures published by the Evening Standard today regarding Soviet grain collections. For the month of July the government collected 114 per cent of the amount of wheat its programme called for and in August collections amounted to 97 per cent. However, in September the collections had fallen to 69 per cent and in October they had declined to 52 per cent, making necessary a sharp curtailment in exports. The same figures show the autumn sowing of winter wheat and rye was 82,600,000 acres, or 2,000,000 acres less than last year.

Echoes of story-book days on the western plains will be heard next week at Wainwright National Park when daredevil buffalo hunters make a temporary return to the scenes of their epic deeds. In one immense round-up, 1,500 animals from Canada's great herd of bison at Wainwright Park will be slaughtered to provide Buffalo steaks and fur coats for many Canadians. A train of thirty empty refrigerator cars of the Canadian National Railways was dispatched to Wainwright to be placed in readiness for shipments of buffalo meat to all parts of the Dominion.

A deficit of \$10,000 was realized by the Calgary Exhibition this year. This was less than expected.

Nearly 11 per cent of fatal motor accidents occur between the hours of 12 midnight and 6 a.m., according to the California State Automobile Association.

In one minute corns stop hurting

It's really wonderful how quickly Dr. Scholl's Zino-pads bring relief. Itching starts immediately, while the tender spot is protected against pressure and irritation. Zino-pads are elastic, adhesive, waterproof. Antiseptic absolutely safe! Try them today.

Let Your Dollars Serve Canada

...with Profit to Yourself

CANADA is inviting you to-day to lend her your money by buying National Service Loan Bonds. She undertakes to return the full value of the Bonds in five years or in ten years, as you prefer, and you can sell this obligation for cash any time you wish. In the meantime you will receive from the National Treasury five per cent. interest each year.

This Loan constitutes a national duty which every Canadian will recognize — an opportunity to Let Your Dollars Serve Canada — to promote national welfare — to quicken new prosperity in which all will share.

At the same time, the Loan affords an investment opportunity such as does not often occur. The National Service Loan Bonds rank as Canada's premier security, backed by everything Canada has in physical resources and in national integrity. An interest return of over five per cent. is well above the average for Bonds of this character, and the new Bonds may be purchased today to yield better than five per cent. until maturity.

Buy National Service Loan Bonds today, with benefit to all Canadians and with profit to yourself as an investor and a citizen.

Let Your Dollars Serve Canada

Send in your order now. Any branch in Canada of any chartered bank or any recognized dealer will supply detailed information and the necessary application forms.

ISSUE PRICE: 5 Year 5% Bonds, 99% and accrued interest
10 Year 5% Bonds, 99% and accrued interest

Canadian Gold Mines Playing Vital Part In Maintenance Abroad Of Our National Credit

When leading economists and bankers declare that Canadian gold mines are playing a vital part in the maintenance abroad of our national credit; that at home they are aiding materially in the return to prosperity; there are excellent grounds for Canadians to view the future with optimism. Never in the history of the industry have our gold mines been more capable of shouldering so heavy a responsibility.

Our mines are now producing over a million dollars of gold weekly, the highest rate achieved since the inception of gold mining on a commercial scale in Canada seventy-three years ago, and increases beyond this point are assured by expansion programs under way. Those sufficiently close to the picture will not be surprised to see Sir John Aird's prediction of \$100,000,000 a year realized well within the ten-year period conservatively allowed.

In its growth to one of the great mining countries of the world Canada is fulfilling early promise. A comparison of Champlain discovered silver, copper and iron in Nova Scotia as far back as 1604. The Indian had previously found copper, and Jesuit fathers found and mined gold. But the first commercial mining of gold of which there are records, was ushered into the discovery in 1826 of the famous Fraser River deposits in British Columbia.

From that time forward our gold mining industry met with varying fortunes, production during the period from 1858 to 1912 seeing many ebb and flows consequent upon the development of discoveries in British Columbia and the Yukon. Gold has now been discovered in every province of the Dominion with the exception of Prince Edward Island. At times annual gold production fell below a million dollars, at others it rose threefold strong. When Yukon was at the peak the total reached \$28,000,000, of which Yukon accounted for \$22,000,000. This record stood for twenty years, until, in fact, seven years ago.

With the discovery of Porcupine in 1909 and Kirkland Lake two years later a new and more brilliant era was commenced. Three years after Henry Hollinger, Sam McIntyre and Jack Wilson started the Hollinger, McIntyre and Dome Mines. Ontario gave the first signs of coming greatness in a gold mining sense. The possibilities of new mines being developed are conceded by those familiar with our mineral areas to be immeasurably better than any other country in the world. This statement finds international support in the conclusions of the Gold Delegation of the League of Nations. This body, after due consideration, credits Canada with estimates of a rising scale of output over the next decade. Declines in the same period were predicted for all other countries.

The idea of the benefits derived on Canada by reason of the sensational development of gold mining in recent years can be gained from the fact that a million dollars' worth of gold production is being infused into the sluggish arteries of commerce. It is a well known fact that a large proportion of receipts goes for payrolls and supplies. A well-known banker who knows mining from long association in the North has estimated that every dollar spent in gold mining is multiplied twenty-five times as it comes through commercial channels from the standpoint of dividends our gold mines have built up a record of which any Canadian may be justly proud. Ontario gold mines alone, to the end of last year, had distributed to stockholders some \$105,000,000. In the current year, with general industry operating so largely "in the red" Canadian gold mines will show a substantial increase in dividends to approximately \$15,000,000. Ontario's share of this large sum will be about 94 per cent. One Ontario mine, Lake

Shore, is distributing to its stockholders this calendar year, \$14,800,000, an amount equivalent to more than one-quarter of the total dividends of Canadian chartered banks for the same period.

The importance of our gold mines to Canada at this critical juncture is perhaps most graphically illustrated by the fact that the current year's production of gold will pay the annual interest on a billion dollars of foreign debt without disturbing our trade balance or impairing the position of the Canadian dollar on foreign exchanges.

By the close of 1934 the Canadian output of gold will reach \$100,000,000—St. Catharines Standard.

New Turnip Grades

Issued At Ottawa

Amendments To Government Regulations Are Very Important

An important amendment to government regulations for Rutabagas, or table turnips, has been brought into effect by order of the Minister of Agriculture, promulgated in the current issue of the Canada Gazette. The experience of the past season showed that while an important step in the right direction had been made in the grading of table turnips, the grades should be modified so as better to suit market demand. Only one quality of turnip, Canada No. 1, is recognized in grading and this is classified by size to meet market preference. For example, the Philadelphia market, which imports a large supply from Canadian growers, shows a marked preference for a turnip of good quality sizing from 2 inches to 4 inches in diameter, while the New England market prefers a medium-sized turnip, from 4 inches to 6 inches in diameter.

A careful survey of the whole situation established the facts on which the modification of grades was made, and the changes were submitted to and enthusiastically approved by growers, shipping and marketing interests before being put into effect.

Perhaps the most important change is in the introduction of the term "slapely." As applied to turnips, it means a turnip which is one and one-half times as long as its diameter. In determining this feature individual measurements of many thousands of turnips from representative fields were made.

Each of the four table turnip grades have the same specifications for quality; they must be firm, shape and properly trimmed, practically free from damage caused by phythium, freezing, water cure, soft rot, root, worm, grub, growth cracks or mechanical means. Otherwise the diameter determines the grades, which are: Canada No. 1, small, 2 inches to 4 inches; Canada No. 2, small medium, 2 1/2 inches to 3 inches in diameter; Canada No. 1, medium, 4 inches to 6 inches in diameter; Canada No. 2, large, not less than 4 inches in diameter.

A Likely Response

Commenting on the prevalence of slang, the Governor-General of Canada, Lord Dufferin, made the statement that "our language is a heritage inheritance, a heritage worth preserving." The popular response, no doubt, will be that the language is "Al" and the Governor-General "O.K."

FASHION

No. 301—Smart Tailoredness. This style is designed in sizes 36, 38, 40, 42, 44 and 46 inches bust measure. Size 36 requires 3 1/2 yards of 39-inch material with 3/4 yard of 35-inch contrasting.

No. 459—Jasmy Combination. This style is designed in sizes 14, 16, 18, 20, 22, 24 and 26 inches bust measure. Size 16 requires 1 1/2 yards of 39-inch material with 3/4 yard of 35-inch contrasting.

No. 505—For Wee Maids. This style is designed in sizes 2, 4 and 6 years. Size 4 requires 2 1/2 yards of 39-inch material with 1/2 yard of 35-inch contrasting.

No. 491—Boussier (Flapper) Dolls blouse, trousers and cap. Cut in one size only and requires 1 1/4 yards of 39-inch light and 3/4 yard of 39-inch dark material.

No. 608—Smart Simplicity. This style is designed in sizes 36, 38, 40, 42, 44 and 46 inches bust measure. Size 36 requires 3 1/2 yards of 39-inch material with 1 yard of 3-inch ribbon for belt.

No. 653—A Smart Tailor. This style is designed in sizes 12, 14 and 16 years. Size 8 requires 1 1/2 yards of 39-inch material with 3/4 yard of 35-inch contrasting. All patterns 25 cents in stamps or coin (coin preferred). Wrap copy carefully.

Radium Discoveries Made In Western Canada May Prove To Be Of Great Significance

Canadian Exhibit

Carries Off Honors

Apples and Honey At Imperial Fruit Show Receive Awards

Rights on the heels of news of better conditions in Britain following the elections comes the interesting information that Canadian apples and honey have begun to reassert their supremacy and make official appeal to all who like good things to eat. At the Imperial Fruit Show in Manchester, held recently, the Dominion did well. In the class open to the British Empire, which included exhibits from Australia, New Zealand and South Africa, as well as English-grown fruit, British Columbia secured two second awards, one for dessert apples and the other for culinary apples.

In the Canadian section honors were divided by British Columbia and Nova Scotia. The Western Province won first for McIntosh, Jonathan, Delicious and Newton, while the eastern side of the Dominion had the best Cox's Orange, King Golden Russet, Sp. Greenings, Gravenstein and Baldwin. This indicates that the British public is being informed regarding the almost bewildering variety, as well as the excellent condition of Canadian apples.

In the honey section there was even more success. Competing in three sections open to all Dominions and colonies, Ontario exhibitors won two first awards, and those from British Columbia one first, two second and three third prizes. This success is certain to attract the attention of British consumers, and should lead to an increase in the Dominion's export business. Ontario exhibitors were two first awards, and those from British Columbia one first, two second and three third prizes. This success is certain to attract the attention of British consumers, and should lead to an increase in the Dominion's export business.

Canadian Eggs For Export

Considerable Increase Shown In Estimate For This Year

It is estimated that this year 20,000 cases each containing 30 dozen eggs, will be exported to Great Britain from Canada. This marks a considerable revival from the exports in 1930 which totalled approximately 6,200 cases. Already over 8,000 cases of eggs have been shipped to Great Britain from British Columbia via the Panama Canal. The remainder of Canadian exports, originating in the Prairie and Eastern Provinces, will be shipped from Montreal before the end of November. Whether shipments are made by the shorter water way from Montreal, or by the longer route through the Panama Canal, the eggs arrive in Great Britain in first class condition.

In order that the quality of Canadian eggs may be fully dependable at time of export all shipments are re-inspected by law to be graded according to Canadian standard grades of quality and inspected by Dominion Government inspectors before shipment. The per capita yearly consumption of eggs in Canada is approximately 372, or more than one egg per day, every day of the year.

A Rare Discovery

Five Bilkert's Unknown Musical Compositions Of Haydn Brought To Light

Five hitherto unknown compositions of Josef Haydn, famous composer, have been discovered by Dr. Karl Geiringer, custodian of archives of the Vienna Society of the Friends of Music, and are now being published. According to Dr. Geiringer, the compositions rank with the master's best works. The manuscripts include two nocturnes in "F" and "C" major, with orchestral accompaniment. The principal melody was intended to be carried by the "lira organista," an obsolete Neapolitan instrument resembling a guitar.

Can Detect Renovated Stamps

How renovated stamps may be detected by use of violet rays and an acid was told during the trial in Lurgan, Ireland, of John Blaney, charged with using old insurance tax stamps. A government expert demonstrated how the process revealed the cancellation figures which had been erased from the stamps. Blaney was found guilty of using 28 stamps which had been used before.

All He Had

The bridegroom had no visible means of support outside of his father yet it was a very fashionable wedding. "Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

"Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

"Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

"Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

"Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

"Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

"Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

"Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

"Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

"Bridegroom: With all my worldly goods I thee endow." "Bride: Repeat after me: 'With all my worldly goods I thee endow.'"

Near Great Bear Lake, in the wilds of the Mackenzie district of Canada,

mining engineers have been striking pits into some recently discovered deposits of pitchblende. Working in several extensive veins that run beneath small lakes in the district, miners have dug out enough ore to yield forty tons of pitchblende. The valuable is this ore considered, according to Industrial and Engineering Chemistry, that half of the mined material has been carried to the nearest railroad by airplane.

The report goes on to say that "the twenty tons which have been brought out will yield from two to three and a half grams of radium. The richness of this ore, together with the low cost of mining it, indicates that here, at last, is a deposit well able to match itself against those in South Africa." The reference here is to the production of radium salts from ores mined in the Belgian Congo and exploited by a Belgian mining concern as one of the world's important sources of radium. According to the report, these rich foreign resources constitute a threat to the dominance of the United States in the working with poorer ores.

Discovery of the Canadian deposits of pitchblende may have consequences of profound importance to science and to medical science. If the ore supply tapped in Mackenzie yields as high as 50 per cent. uranium, as reported, it may prove to be a North American source of radium salts rich enough to provide much larger supplies of radium than those now obtained from the pitchblende of the Caribou and Autunne mines. Radium, but it is one of the most valuable ores mined for that purpose. Caribou and Autunne are among the principal sources of the substance which has become so precious to science and industry.

A new industrial use of radium is the application of its gamma rays in testing of steel. The story of this scientific triumph forms a research narrative prepared by Professor Gilbert E. Dean, of Lehigh University, and issued by the Engineering Foundation a few days ago. It is a coincidence that the world should be in the midst of the new discovery of radium within a week of the announcement of recent progress at the pitchblende mines in Mackenzie.

The method by which engineers may now test sheets or beams of steel for hidden defects by the use of gamma rays is extraordinarily simple. It was first revealed to the world in September, 1930, by physicists of the Naval Research Laboratory in Washington. The process is somewhat similar to X-ray photography. Placing a tiny capsule of radioactive substance on one side of a twelve-inch steel girder, for instance, engineers paste a film of photographic plate against the other side. The resulting picture discloses even small flaws in the interior of the metal.

One of the great advantages of this process of X-raying heavy metals is that all necessary equipment may be carried about in a handbag—carried, as Professor Dean says, "in a suitcase, to the top of a skyscraper, into a machine shop or foundry, anywhere that a large object may need examination." Of course the most serious drawback to the extensive use of such a method is the high cost of radium, but this situation may be altered in time by further discoveries of natural resources such as the pitchblende deposits found in Canada—New York Sun.

In the 11 far western states, motor vehicles average about 500 miles a year of travel greater than cars in the other states.

A new plastic material made of sugar is unburnable, and is expected to be valuable therefore in X-ray and photographic films.

Creditor: "I will not leave your side until you have paid me." Debtor: "A companion for life at last."—Fleegle's Blister, Munich.

Primitive Illumination

Indians in British Columbia Still Use Candle Fish

The candle-fish or oilfish is still being used by the Indians in some parts of British Columbia for illuminating purposes. After catching the candle-fish the Indians place them in a dry sheltered place, and wait till they are shrunken and all the water has evaporated from them. They then set the head or tail of the fish alight, and use the carcass as they would a torch. There is so much oil in the case that it provides a bright steady flame which burns slowly.

Machine-made methods are now used in the large vineyards of northern Greece.

Feather wings flapped by a gasoline motor propel an Austrian inventor's bicycle.

GOING AFTER BUSINESS

Jeweller Found Sales Good When Price Was Right

Business men are working harder than ever to get new business these days, and some of them assert they have uncovered all kinds of new fields and fresh business.

A jeweller, finding that his old line of high-priced wares was not moving satisfactorily, turned to a much cheaper variety of jewelry, and sent his salesmen not only to old territories but into areas he hitherto had not attempted to sell. The results have been excellent, his accounts showing that the loss of the first six months in his business has been turned into a profit for the year to date. He asserts people are ready to buy the right goods at the right prices.

California's tallest redwood tree measures 364 feet.

CANADIAN BEES FOR ORIENT

When 10,000,000 Canadian bees sailed for China recently about half as many sold for Russia, they were given comfortable accommodation in the 48 cases shown in the photograph. The unique shipment was carefully handled by longshoremen, and while stowed on the Canadian Pacific liner, the bees will be kept at a temperature of 40 degrees. As "bees nectar," they cannot hatch about a year, whereas 10,000,000 bees, whose company is one of the largest honey producers in the British Empire, Mr. Reid has already shipped two consignments of bees to China from his California apiaries, and is now taking leave of absence for five years, during which time he will demonstrate Canadian and American methods of bee culture in the Orient.

In the picture, from left to right, are Grover Reid, breeder; Winifred Reid, his wife; and George Reid, breeder and shipper.

"After salt herrings."—Karikatur, Oslo.

PREMIER BENNETT IS GUEST AT LONDON BANQUET

London.—A brilliant company of 200 guests attended a dinner in Canada House tonight arranged by G. C. Howard Ferguson, Canadian high commissioner in Great Britain, for Prime Minister R. B. Bennett of Canada, who is now in London. Prime Minister Ramsay MacDonald, several members of his cabinet, the Lord Chief Justice, Lord Kipling, and two Canadian-born peers, Lord Beaverbrook and Lord Greenwood, were among the guests.

The first loaf of bread baked here from wheat exported to Great Britain from Churchill on the Hudson Bay route, was served. After announcing this fact, the Canadian high commissioner added shyly he hoped if Great Britain inaugurated a wheat quota, it would be small.

The speeches were of an informal character. The Canadian prime minister, alluding to the recent change in government here, said under circumstances made it exceedingly difficult for him to make a statement of special importance. He said that at this time and place he might contribute nothing "to the galaxy of the nation."

Referring on past memories was of little avail, proceeded Mr. Bennett. The political aspect of the Empire had passed and "was a thing of the past." He said that he was not here to remain an Empire of free association of peoples in equal status. I see everywhere about me on this visit the same manifestations of spirit I see in my own country. By united efforts we may be able to do this.

"I believe," proceeded the Canadian prime minister, "the problems which have asserted themselves during the last few months, affecting this country and my own, can be brought to a solution by the combination of your own matured intellect and my pioneer spirit."

Prime Minister MacDonald, in proposing the health of the Canadian high commissioner, spoke in terms of the highest praise of the tenure of office of Mr. Ferguson. "I hope most sincerely," said Mr. MacDonald, "that through the conference to be held in Ottawa next June or July, the high ideals which Mr. Bennett espoused tonight will be fulfilled and that from those results, the dominions and ourselves will be knit together in one splendid unity."

May Purchase New Bonds

Civil Workers Request Payment Be Deducted From Salary

Ottawa.—Arrangement with the government for civil servants to purchase bonds in the national service loan by regular deductions from their pay cheques will be brought before the Professional Institute of the civil service. At the concluding session of a three-day convention, which is now in progress, the institute's executive was asked to request inauguration of the scheme. The institute is offering to pay \$1,000 service loan bond from its funds.

Dr. E. S. Archibald, superintendent of the experimental farms, department of agriculture, was elected as seventh president of the institute. Regional vice-presidents elected included Alberta and Saskatchewan, Col. P. Steele, Calgary; British Columbia and Yukon, Col. G. H. Whyte, Vancouver.

Painting of Canadian War Memorial Received

Premier Bennett Accepts Gift From Captain John Dewar

London.—Prime Minister R. B. Bennett of Canada received a large painting of the Canadian War Memorial now being erected at Vimy Ridge, executed by Capt. Walter Langstaffe.

The painting was presented by Capt. John Dewar, son of the late Lord Dewar, who also gave a large painting of Mount Gas to Australia.

Donation From Royalty

London, Eng.—King George has given \$500 and Queen Mary \$250 to the fund being raised by the Mayor of Doncaster to aid the families bereaved in the Bentley mine disaster in which forty-two men lost their lives.

National Resources Surplus

Edmonton, Alberta.—For the first six months national resources were under administration of the province, a surplus of \$248,475 was earned according to public accounts for the year ended March 31, issued by the Provincial Government.

W. N. U. 1018

Martyrs To Science

Montreal Physicians Succumb To Infection Contracted In Europe

Montreal, Que.—Second victim of a mysterious infection picked up while doing research work in continental universities two years ago, Dr. Joseph R. Gallagher, surgeon attached to the Montreal General Hospital, died last night after suffering. The first victim was Dr. H. Stewart, who died six months ago.

The surgeons, friends, went to Europe in 1920 to do some post-graduate work in London, Berlin and Vienna hospitals. Both returned with a mysterious infection picked up apparently in the course of their work. Both are now dead from blood poisoning.

Dr. Gallagher, a native of Bath, N.B., graduated from McGill University in the class of 1910. In 1913 he went to British Columbia acting as physician and surgeon in a railway construction camp. He returned to Montreal in 1915. He then entered in the army medical corps and served overseas.

Transport Food By Plane

Workers On Prince Albert National Park Will Receive Supplies By Air Route

Prince Albert, Sask.—Aeroplane will be used this winter to carry food from here to isolated Federal Government relief camps in Prince Albert National Park, which is now being explored. The road from here to the park will not be kept open, but two R.C.A.F. Fairchild 77s, now at Ladder Lake, will keep the 120 men in the various camps supplied with food.

The camp themselves are the most remote in the north. They are now being cut off by the winter. The road from here to the park will not be kept open, but two R.C.A.F. Fairchild 77s, now at Ladder Lake, will keep the 120 men in the various camps supplied with food.

Canada Is Growing

Census Figures Will Indicate Population Is Well Over Ten Millions

With population figures complete for the three maritime provinces, Ontario, and the three prairie provinces, it would appear that the total population of the Dominion at the 1931 census will be well over the ten million mark. With Quebec, British Columbia and the Northwest Territories yet to come the population is 7,783,420. Placing these at the same figure as the 1921 census, the 1931 census for the Dominion would be approximately 9,881,000 so that to reach ten millions all British Columbia and Quebec together would have to gain would be \$10,000, and it is generally expected that their gains will be considerably more than that.

Chinese Students Went War

Mob Of Eight Thousand Holds Up Railway Traffic

Shanghai, China.—Demanding a declaration of war against Japan, more than 8,000 Chinese students rioted today in Shanghai, and the train wrecked the station master's office into which they were given five extra trains in which to go to the capital at Nanjing.

At intervening stations they were joined by 5,000 more students. They also demanded China's withdrawal from the League of Nations and the execution of Chang Hsueh-Liang, charging him with failure to resist the Japanese invasion of Manchuria.

Will Arrange For Business

L. S. Glass Appointed Trade Commissioner For British West Indies

Montreal, Que.—To develop trade relations between the West Indies and Canada, Lester S. Glass has been appointed trade commissioner for the British West Indies (eastern group) with office here. The new commissioner, a member of the Canadian Trade Commission Service of the department of Trade and Commerce, has been loaned to the West Indian Colonies for three years.

Ontario Auto Licenses

Toronto, Ont.—The Ontario Government, Wednesday, November 20, adopted the recommendation of Hon. Leopold MacAlpyn, Minister of Highways for Ontario, to raise license fees on all passenger cars. Four cylinder cars, it is understood will pay \$8; six-cylinder cars, \$12; eight-cylinder cars, \$20; 12-cylinder cars, \$30; and 16-cylinder cars, \$40.

Still Out Of Work

Ottawa, Ont.—In Western Canada and in Ottawa, there are still nearly 500 former members of the staff of the Department of Interior who have not been placed in other departments of the Government service.

China and Japan

If Japan Goes To War, She Will Commit Suicide, Says Speaker

Calgary, Alberta.—"If there is war, it will be tragedy," declared W. M. Birks, Montreal, a member of the Canadian delegation to the Institute of Pacific Relations at Shanghai, in an address here to a joint gathering of service clubs and the board of trade on the Manchurian situation.

"And if Japan goes to war, she will commit suicide," he added.

Both China and Japan had rights in Manchuria, scene of present disturbances, and Mr. Birks believed a solution without war was imperative. Though Manchuria was a Chinese sovereignty, yet it was chiefly due to efforts of Japanese that the territory had been developed, he said in reviewing the rights of the two nations.

"When we get into trouble we have formed the habit of going to the West for aid," he said. "The Manchurian question may become a Russian question," he warned.

Mr. Birks outlined conditions in Japan and China, drawing the comparison of a highly organized nation and a loosely formed country. He also recommended work of the Institute of Pacific Relations.

Situation In India

Deportation Of Gandhi Tended To Continue To Foment Trouble

London, Eng.—Drastic measures, including the deportation of the Mahatma, Mr. M. K. Gandhi from India, were urged in the House of Lords to prevent renewal of Indian independence disturbances as a result of failure of the round table conference for a new Indian constitution.

Lord Elibank urged the deportation of Gandhi "if he fomenta further disturbances" when he returns to India, where his civil disobedience movement last year caused widespread disorders and economic suffering.

Lord Litchford, under-secretary for India, declared that a "grave situation" exists in India because of terrorist activities directed against British rule. He said the government intends resolutely to suppress terrorism.

Lord Brentford said that, since Gandhi started the civil disobedience campaign, at least 12 Englishmen have been murdered or murderously attacked.

WHEAT POOL GUARANTEES SET AT HIGH FIGURE

Winnipeg, Man.—Overpayments by prairie wheat pools, guaranteed to the banks by the Governments of Manitoba, Saskatchewan, and Alberta, reached \$22,000,000, according to figures made public by high officials of the three provinces.

The guarantee was made in March, 1930, after wheat prices had slumped from high marks on which the pools had based their initial payments.

Saskatchewan's liability is \$13,305,000, Ont. M. A. Macpherson, Provincial Treasurer, announced today. John Bracken paid Manitoba's liability at \$8,333,000, but he did not indicate if this figure was the exact amount of his government's guarantee.

As bonds on wheat pool assets, such as elevators, are held by the three governments, losses which will be sustained by the provinces are not known, except in the case of Manitoba.

Premier Bracken said \$13,323,000 was uncured.

MEMBERS OF TRANSPORTATION PROBE COMMISSION

Mr. Justice Lyman P. Duff, of the Supreme Court of Canada (left), has appointed chairman of the newly launched commission to enquire into the causes of transportation problems. Among the members of the commission is Sir Joseph Flavelle (right), of Toronto. The probe is expected to commence shortly before the middle of December.

NEW DEPUTY MINISTER

Major J. C. Parmelee, who has just been made Deputy Minister of Trade and Commerce, for the past few years he has been Assistant Deputy Minister of Trade and Commerce, and has been with that particular department for more than thirty years.

End Of Shipping Season

S. Lawrence River Vessels Preparing To Close For Winter Months

Montreal, Que.—The St. Lawrence River route to the sea will soon be closed for the winter season, and there is an unusual hush in the ports of Montreal and Quebec as shipping men hustle to complete their chartering and loading of the last vessels before ice seals the river.

No more ocean passenger vessels will come from overseas ports to Montreal or Quebec this season. Several liners will leave Montreal for Quebec and the British Isles over the week-end.

The board of harbor commissioners here hope to exceed a figure of 90,000,000 bushels of grain exported from Montreal this season, considerably in advance of the 1930 total.

Viscount Snowden

Former Chancellor Of The Exchequer Takes Seat In House Of Lords

London, Eng.—Viscount Snowden of Chichester, clad in robes of ermine and took his seat in the House of Lords today.

The ceremony of centuries past was altered for the little man, former Chancellor of the Exchequer, who hoped to exceed a figure of 90,000,000 bushels of grain exported from Montreal this season, considerably in advance of the 1930 total.

The Service Loan

Says success Of Loan Will Speed Up Return Of Prosperity

Toronto, Ont.—Premier George S. Henry, of Ontario, in an address on the National Service Loan, said the success of the loan would speed up the return of prosperity from one end of Canada to the other.

The loan, "is a sign and symbol of our unity from the Atlantic to the Pacific" and "it is an opportunity for Canadians to show the world that they back their conviction with their cash."

Awarded Gold Medal

Winnipeg, Man.—Elizabeth Banning, of the Winnipeg, has been awarded the Minnie Campbell gold medal of the provincial chapter of the Imperial Order Daughters of the Empire for the highest standing in English literature in the Province of Manitoba. It was announced here in her grade class.

Winnipeg, Man.—Elizabeth Banning, of the Winnipeg, has been awarded the Minnie Campbell gold medal of the provincial chapter of the Imperial Order Daughters of the Empire for the highest standing in English literature in the Province of Manitoba. It was announced here in her grade class.

Canada Sends 'Fine Exhibit'

Farm Animals and Grain Entered At Chicago Show

Chicago.—Canada has sent the finest representation of 11 different breeds of farm animals popular in the Dominion to the 1931 International Livestock Exposition which opened here November 28. Canadian-bred horses will be represented by Percheron geldings from Montreal and Clydesdales from Gwyn, Sask.

Best samples of Canada's 1931 harvest will be on view at the international grain and hay show, the largest exhibition to include the sale of samples of Australian wheat from the national show at Sydney, N.S.W., last Easter.

WHEAT QUOTA FOR THE AID OF BRITISH FARMERS

London.—Sleeping to the aid of the British farmer, the government is finally applying a quota to home grown wheat, Sir John Gilmour, minister of agriculture, said in the House of Commons. As another plank in the administration's new agrarian policy, Prime Minister Ramsay MacDonald said a financial resolution, authorizing customs duty on agricultural products would be introduced in the house next Monday.

The minister of agriculture said the quota would be made effective to next year's crop. He added also the government had decided to introduce a measure to reduce imports of "certain non-essential articles of agricultural produce" by means of tariff levies. This would be aimed at such early crops as peas, potatoes, lettuce, asparagus and flowers, which are imported earlier in some countries than in Great Britain. Holland, France, Germany and Belgium ship in considerable quantities.

No government subsidy will be involved in the wheat quota plan, Sir Gilmour said. Probable effect of the quota is difficult to forecast, but it is agreed generally that United States and Argentina farmers will be affected. It was not specified what proportion of British wheat will be made obligatory in mixtures with foreign grain. It was suggested it will be 15 per cent.

Campaign Against Drouth

Wide Interest In Being Taken In Saskatchewan Commission

Regina, Sask.—Full and intelligent discussion of the problems of farmers in Canada is being taken as a factor in the success of the campaign against drouth now being conducted in Saskatchewan. Hon. J. E. Bryant stated, Mr. Bryant is chairman of the commission on conservation of water and afforestation, recently organized.

Wide interest is being taken in the work of the commission, said Mr. Bryant. A list of a "water farming society" formed at Springfield. This society will meet at the most central point in the district every two weeks to discuss and exchange ideas.

Mr. Bryant strongly advocated this move, and states that the commission has at its disposal a number of organizations, supplying literature, etc.

Canadian Coal May Replace U.S. Product

Tests Indicate Feasibility Says Director Of Mines Branch

Ottawa, Ont.—Results of widespread and exhaustive tests of Nova Scotia and British Columbia bituminous coal indicate the feasibility of replacing with the Canadian product a large amount of American coal now being used in the Dominion.

The tests were conducted by John McElfish, director of the mines branch of the Dominion Government. Mr. McElfish has just returned from the conference on bituminous coal held in Pittsburgh, Pa.

Mr. McElfish has stated by Mr. McElfish, in this connection, that already about 60 per cent. of the total coal requirements of the Winnipeg Electric Company are being obtained from British Columbia, B.C., while the Montreal company is trying out a large quantity of Nova Scotia coal.

SAYS CANADA IS PROPER PLACE FOR EMPIRE MEET

London, Eng.—Canada is particularly fitted to be the scene of the next Imperial Economic Conference, the House of Lords was told by Viscount Elibank. His size, world importance, and strategic position within the Empire were factors that gave Canada a commanding role to play as host to the conference. The Conservative peer introduced a motion which congratulated the National Government on its acceptance of the Canadian Government's invitation to hold the conference in Ottawa, but expressed the opinion "stated of economic condition of the Empire" could not be discussed at the conference met at the earliest possible date.

The motion sought to place the Upper House on record as expressing its satisfaction that "under the mandate recently given at the general election, the government, in view of the conference a free hand to consider and employ any methods or plans best calculated to promote the cause of the early fruition of the economic unity of the Empire." The motion was withdrawn after a full day's debate.

Does Not Affect Canada

Ottawa, Ont.—Increase by the French Government of the minimum price of native wheat in the United States is required to use in bread flour from 90 to 97 per cent will have a comparatively slight effect on Canadian wheat, officials of the Department of Trade and Commerce said.

Long Fall Aided Farm Work

Winnipeg.—Fall plowing in all parts of Manitoba was completed before snow covered the prairie and upland districts, says a report issued by the provincial department of agriculture. Not in years have farmers been favored with such a warm autumn.

Electric refrigerators are being rented in Bombay, India.

J. F. Harper left Tuesday of this week to spend the winter months in Calgary.

Ed. and Louis Miller were Calgary visitors this week.

Mr. and Mrs. A. M. Watt were registered at the Wales Hotel Calgary, on Monday.

Farmer's Hardware have on hand two large size furnaces, which they will sell at cost.

Mr. and Mrs. W. Diernert were Calgary visitors during the week.

Mrs. W. R. McEae exhibited a hen turkey at the Toronto Winter Fair and was fortunate in winning fifth prize. We feel Mrs. McEae has won quite an honor as her bird was entered against 179 exhibits, and had been slightly damaged in shipping.

H. E. Smith and Dean Smith motored to Chesholm to visit Howard who is a patient in the Chesholm hospital. They found him much improved.

Mrs. Ab. Brett, who is a patient in the Holy Cross hospital is convalescing.

Frank Smith left on Wednesday night for Los Angeles California, where he will spend the winter with his daughter, Mrs. W. A. Jones.

Miss Florence Woodhull of Vancouver general hospital arrived home Wednesday night and has taken charge of her father who is seriously ill.

Mrs. C. A. Johnson, who has been visiting at her home in Reno, Ohio, left recently to join Mr. Johnson in Montreal where he is engaged in oil operations.

Mr. and Mrs. H. L. Lamont, and Mrs. Joseph Dobbs of Vulcan, were recent visitors at Calgary.

Miss M. Henderson, of Lethbridge, K. Roy McLean, Calgary and Miss Taylor and Don Bond of Carmangay, attended the Minstrel show on Friday night.

Miss Archer of Calgary was the guest of Mrs. M. Sison over the week end.

Mr. and Mrs. Forest Bassett of Chesholm visited with the latter parents, Mr. and Mrs. W. R. Sharp, over Sunday.

Mrs. G. A. Manhard was a tea hostess on Wednesday in honor of Mrs. A. Stevenson of Blackfalds.

J. P. Matlock, resident of DeBolt Alberta for the past two years, died at DeBolt Friday November 22nd at the age of 70 years. Born in Missouri, Mr. Matlock came to Champion in 1905 where he homesteaded. He is survived by his widow, two daughters, Mrs. Mabel Ebert of Calfax Wash., and Mrs. Anna Beckett of Seattle and three sons, Clyde, Wade and Albert of DeBolt. He also leaves four brothers and two sisters. The deceased was widely known in this district. The heartfelt sympathy of the community goes out to the family in their bereavement.

Mr. and Mrs. V. S. Jopling, who have spent the past few months in Champion, have taken up residence in Calgary.

Mrs. E. B. Bastin who has been quite ill is reported to be recovering.

CANADIAN PACIFIC

STAY WITH THE WHEAT POOL

In commenting on the delivery of wheat to Pool elevators in the prairie provinces, The Northwestern Miller, never very friendly to the Pool movement, says: "There is reason to believe that all three Pools have up to the present enjoyed their usual quota of grain handling in the country. Such conditions in a year of short crops and keen country buying bespeaks the loyalty of the western farmer to the organization he has built up."

The solidarity of purpose manifested by the grain growers of the west wrings grudging praise even from opponents. Do not let up for a minute.

See that All Your Grain goes to Alberta Pool elevators.

You can pool your wheat or sell for cash at current market prices.

Special Announcement!

We wish to take this opportunity to inform the "Champion Public," that we have just received an excellent shipment of TOYS direct from the manufacturers.

Our stock is complete and our prices are as reasonable, as it is possible to make them.

Be sure and look over our assortment, before buying.

Coal, Coal!

New Mine New Scales Better Coal

The public is invited to try the product of our new mine. New and up-to-date equipment and a harder seam of coal put us in a position to assure purchasers of greater satisfaction than was possible previously.

Bread For Sale

BREAD! BREAD

Don't spoil your EATS with poor Bread. You raise good wheat—it's made into good Flour which gives us a chance to make good Bread. WE USE VULCAN FLOUR because it's made from your wheat and because we find it excels all others for flavor and food value. That's what you want—that's what we aim to give you, and at the right price.

5 Cents per Loaf!

for one loaf or a hundred. We sell Bread and Flour at Wholesale Prices. This doesn't please a few but it sure pleases many.

We thank you for your liberal encouragement since we came here—two years ago—when the same sized loaf of Bread, was selling at 15c per loaf, or 2 for 25c. Some difference, we would say!

Think This Over, "Nuff said. Respectfully,
COATES & HANCOCK
HOME BAKERY, Bakers Since 1886
Champion, Alberta.
